CERTIFICATE OF CORRECTION

Madam:

Through no fault of the Applicant, claims 1 and 42 were printed with the incorrect phrasing. More specifically, the phrase "...at least one bridge code associated with a tangible media object..." in claims 1 and 42 is incorrect. Instead, the phrase should read "...at least one bridge code included ~~associated~~ with a tangible media object..." The attached Interview Summary for a telephonic interview on December 1, 2005 between the Examiner of record and Applicant's representative indicates an agreement was reached based on claims 1 and 42 having the phrase "...at least one bridge code included ~~associated~~ with a tangible media object..." Further, the Reasons For Allowance dated January 27, 2006 clearly indicate that claims 1 and 42 have the phrase "...at least one bridge code included ~~associated~~ with a tangible media object..." The Amendment After Final dated December 2, 2005 should have been entered. By way of the attached Certificate of Correction, Applicant respectfully submits that corrected claims 1 and 42 will accurately set forth the allowed subject matter resultant from examination.

A PTO/SB/44 is attached and in a form suitable for printing. As indicated in the PTO/SB/44, the exact claim number, column number and line number where the typographical errors occur in the patent are as follows:

Claim 1, column 13, line 4;

Claim 42, column 15, line 13

Copies of the Interview Summary for a telephonic interview on December 1, 2005, the December 2, 2005 After final Amendment and the Examiner's Reasons for Allowance are included.
